## Demo Data Forms

Are we looking forward to data collection ? If yes then we have customized and responsive forms UI ready for the same

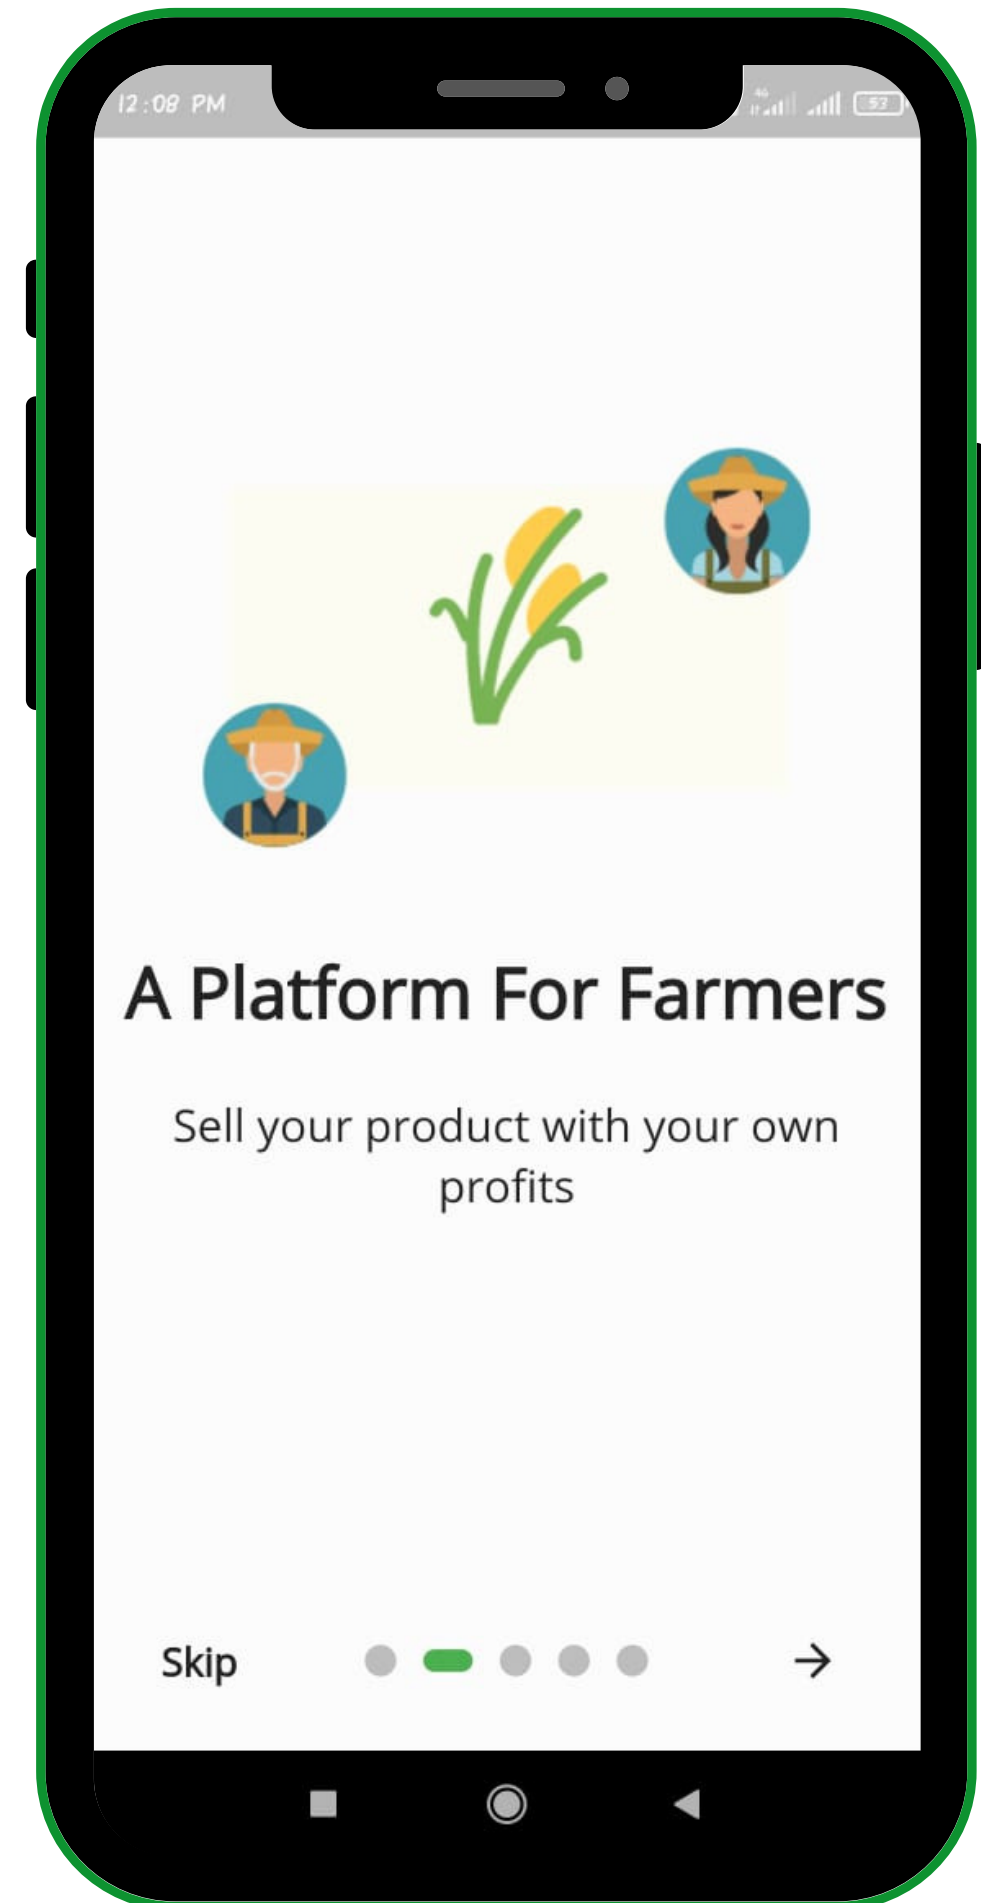

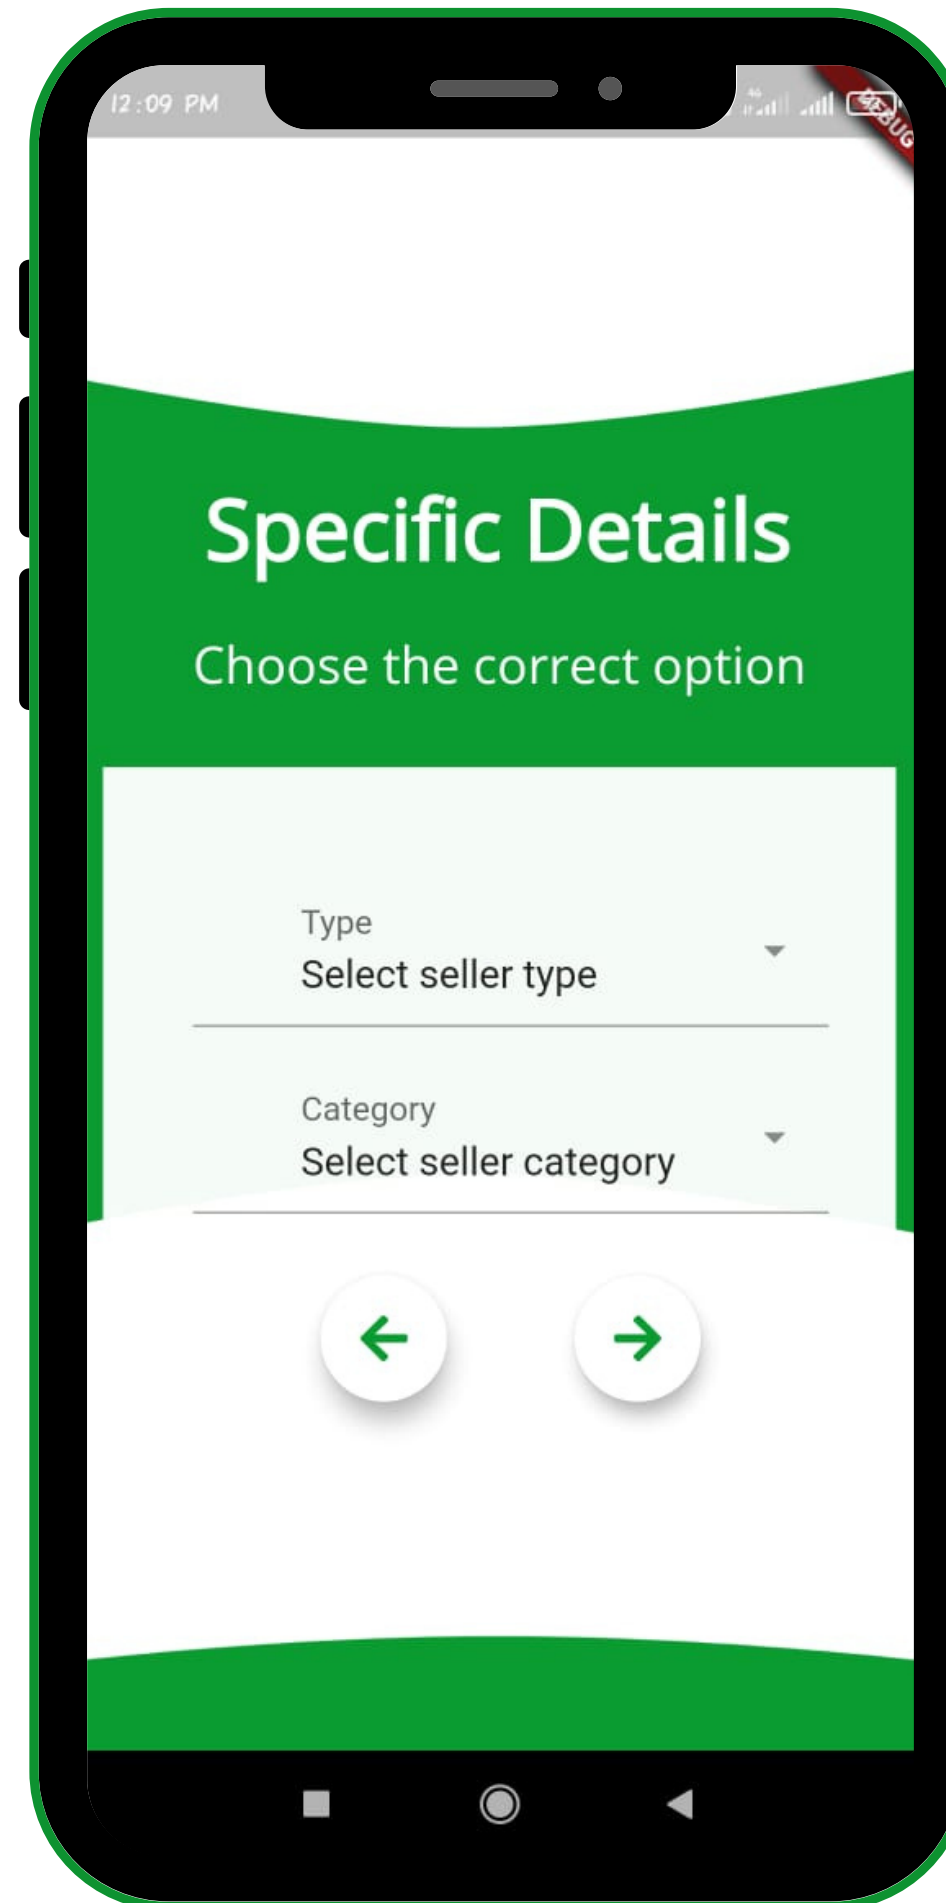

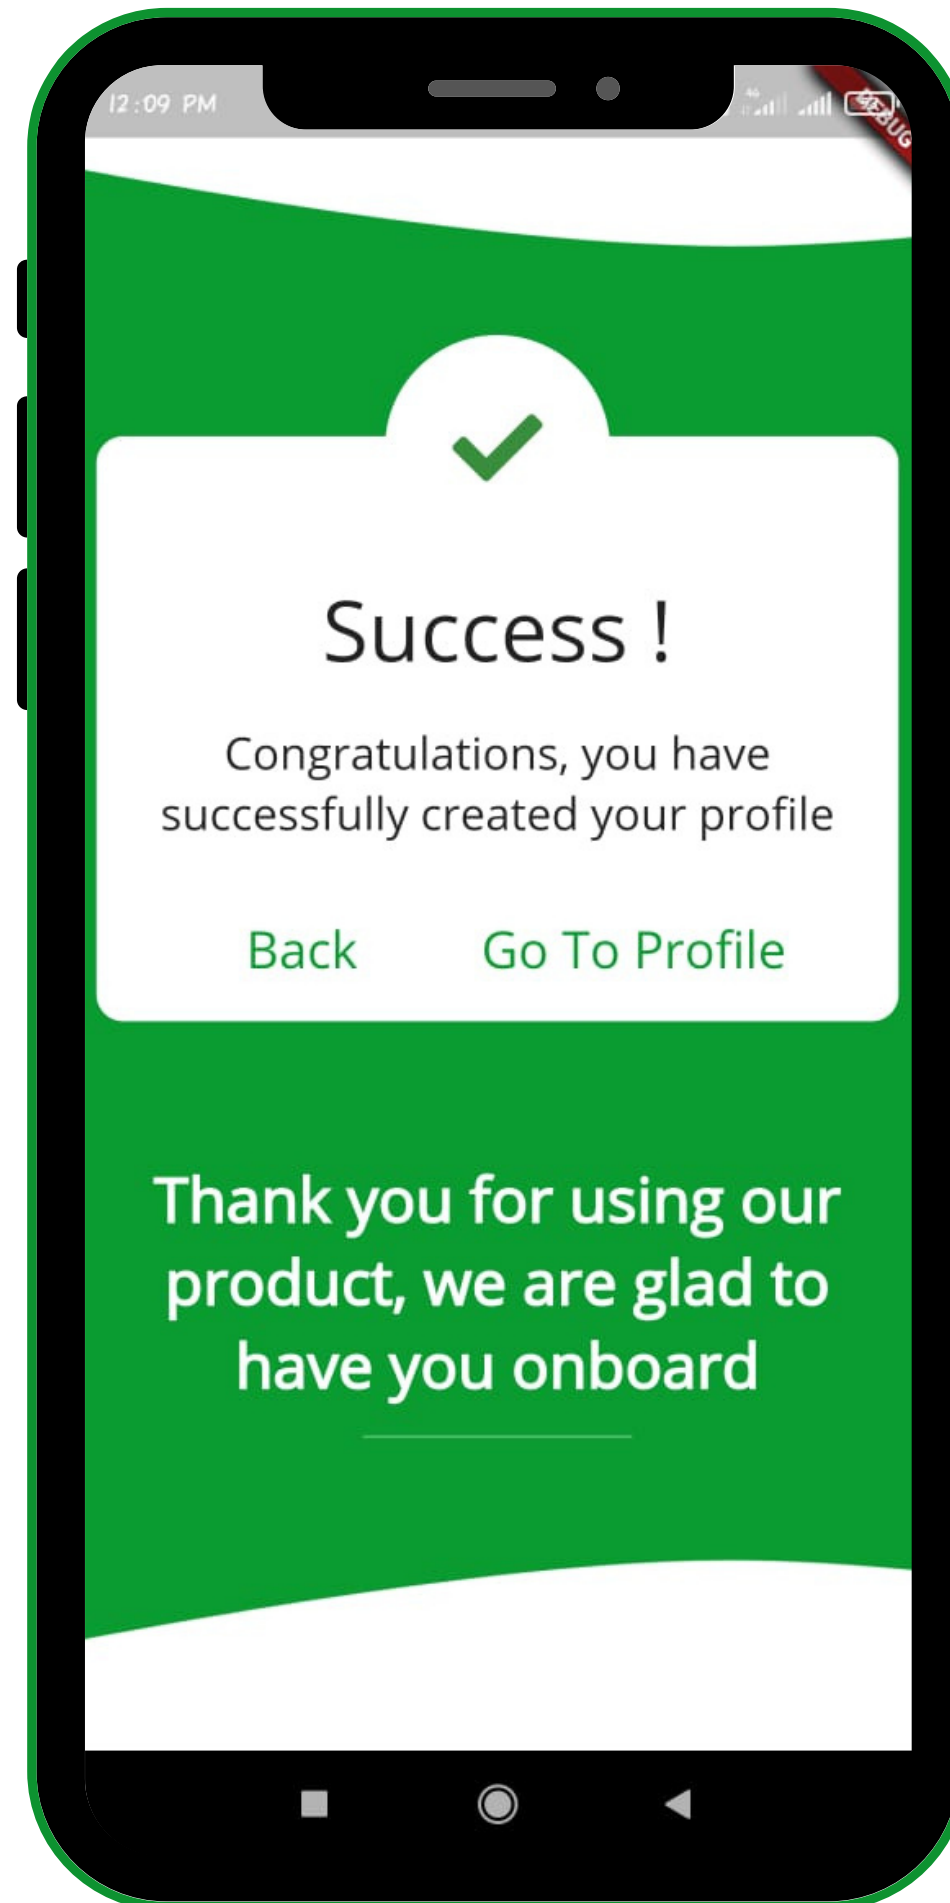

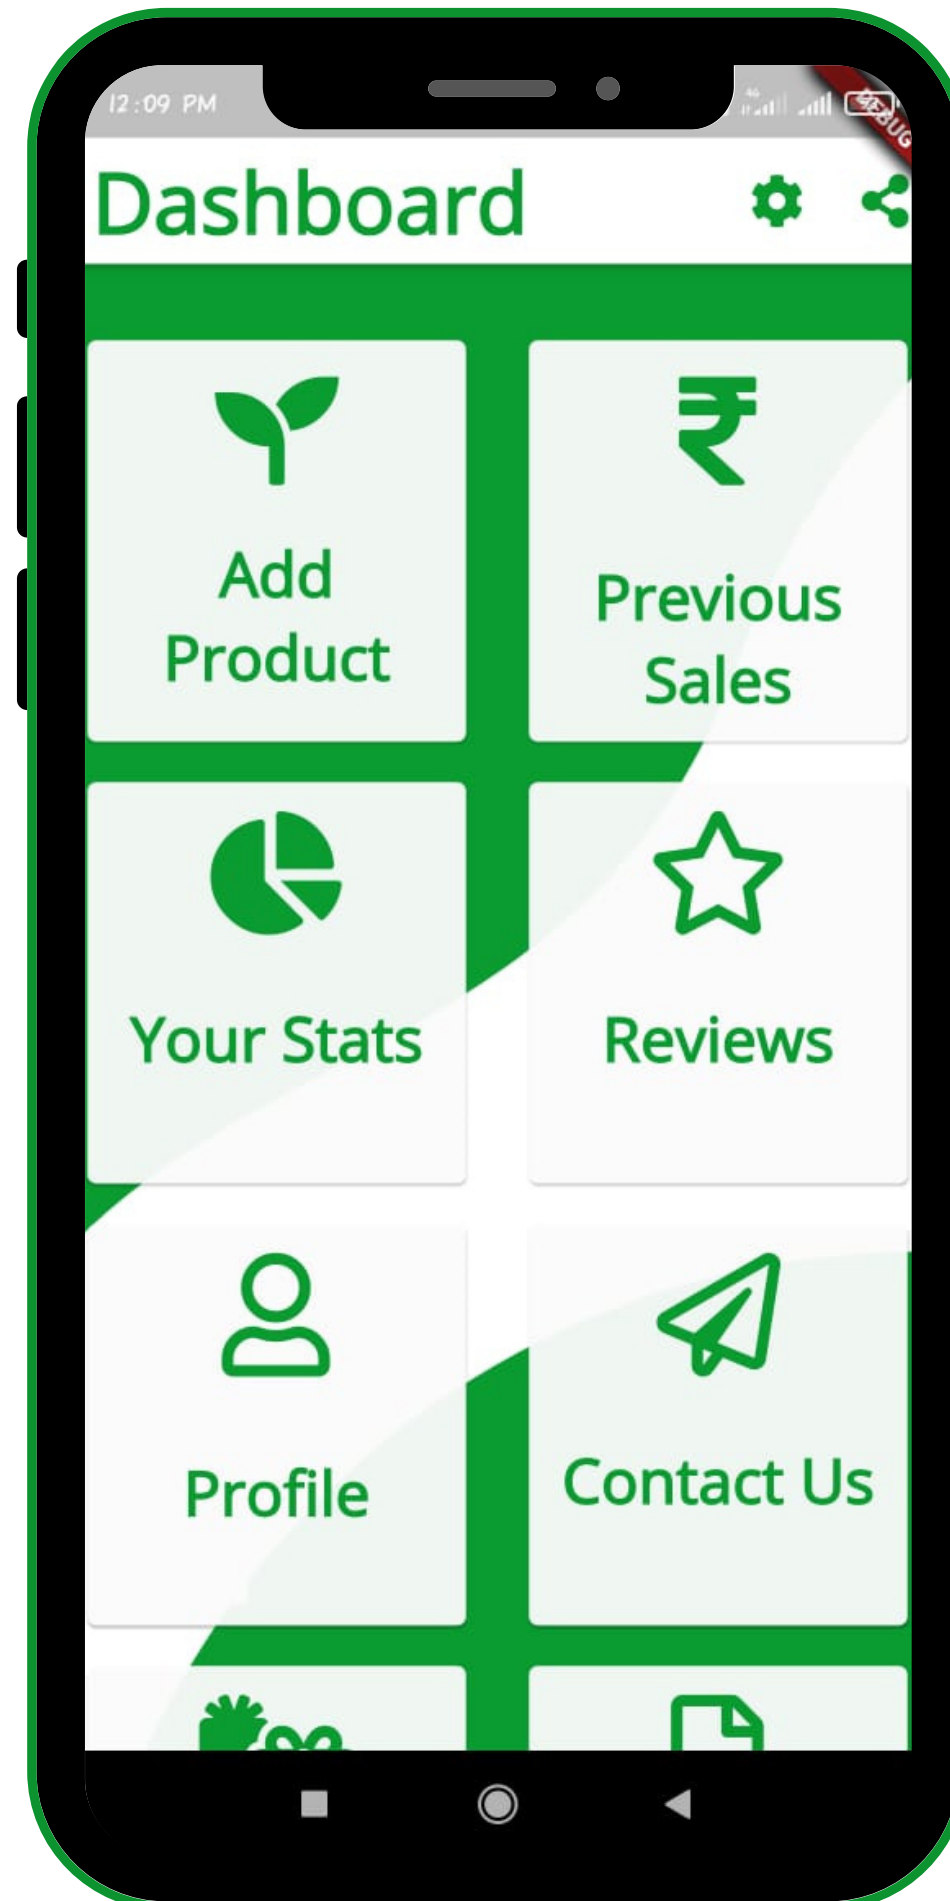

## Demo Payment Screens

Payment Section is necessary for every business, which can be customized on demand.

The image shows a smartphone screen displaying a 'Payment Details' form. The screen has a green header with the title 'Payment Details' and the subtitle 'Enter payment details'. The form contains five input fields, each with a green icon on the left: a person icon for 'Name on the Card', a card icon for 'Card Number', a key icon for 'CVV' (with an eye icon for toggling visibility), a calendar icon for 'ValidFrom', and a calendar with a checkmark icon for 'ValidUpto'. Below each field is a 'Date' label. At the bottom of the form are two circular buttons with green arrows pointing left and right. The smartphone's status bar at the top shows the time '12:08 PM' and various icons for signal, battery, and a red '2x' zoom indicator.

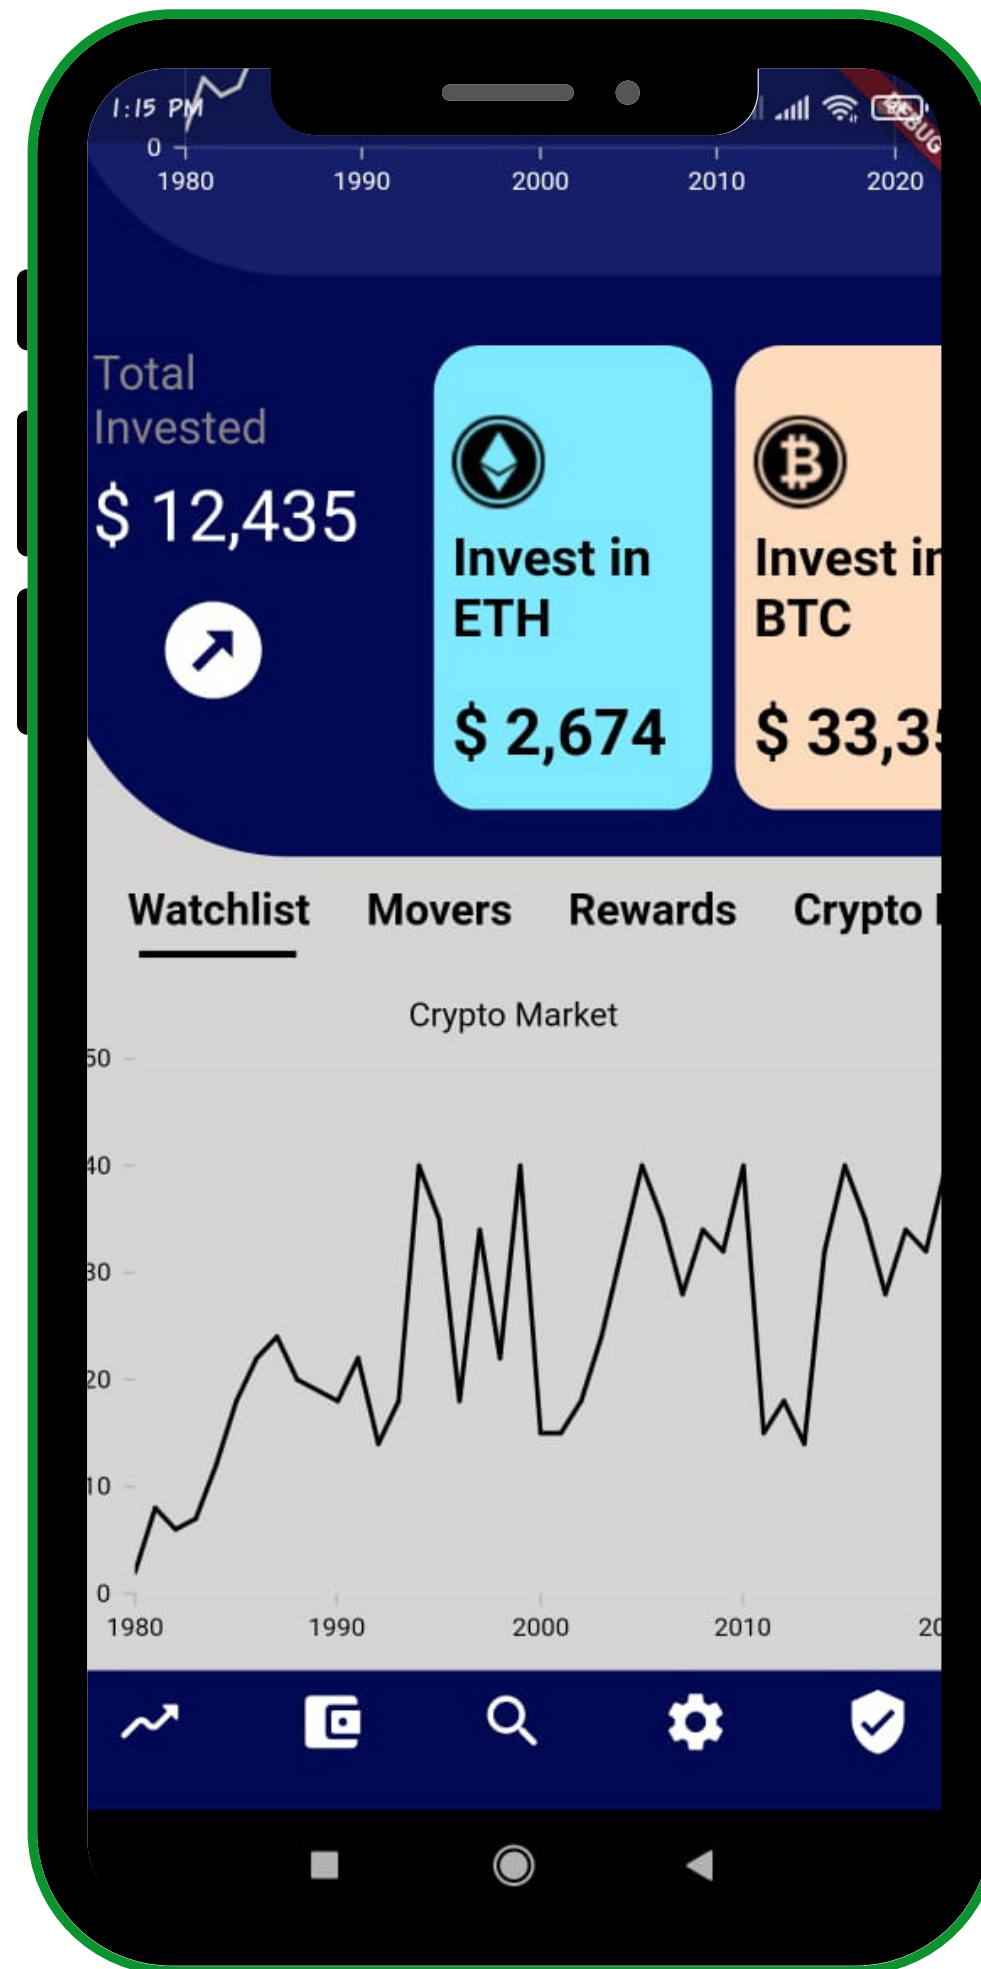

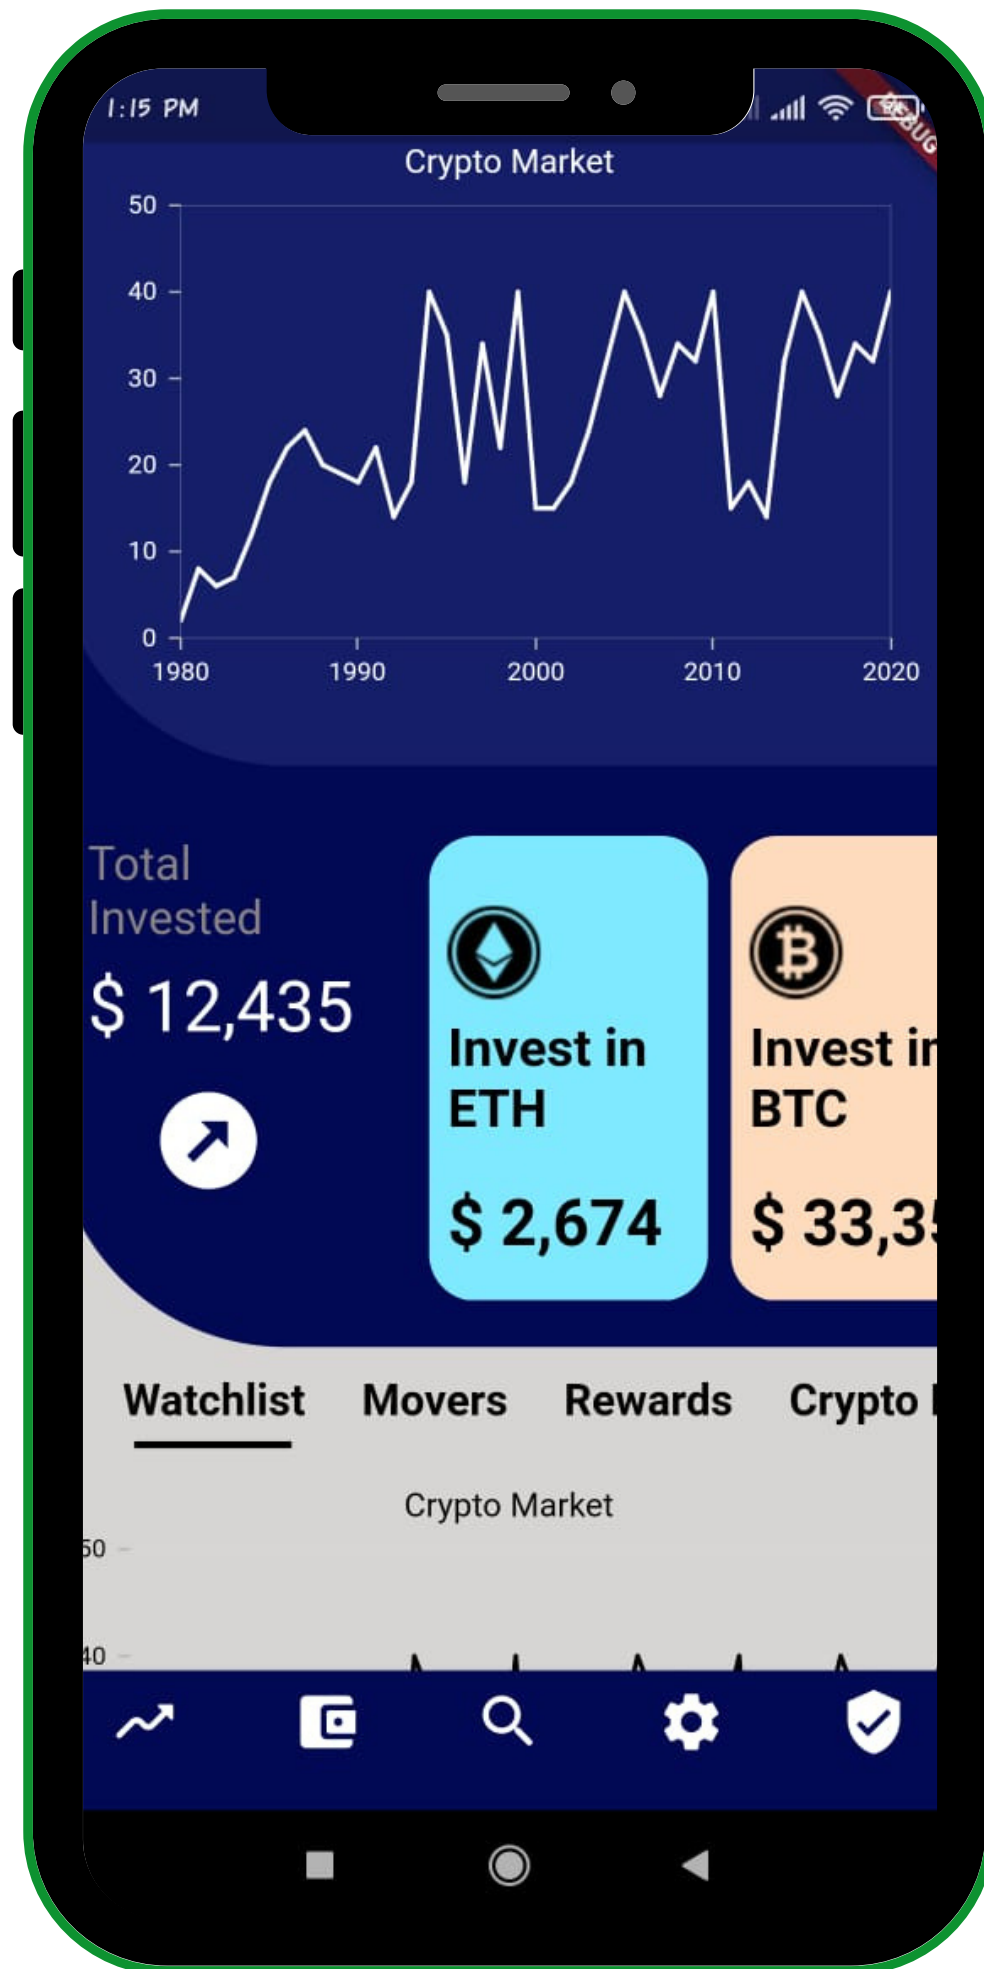

# Customized Mobile Dashboards

Mobile dashboards for customizing all functions for admin as well as users

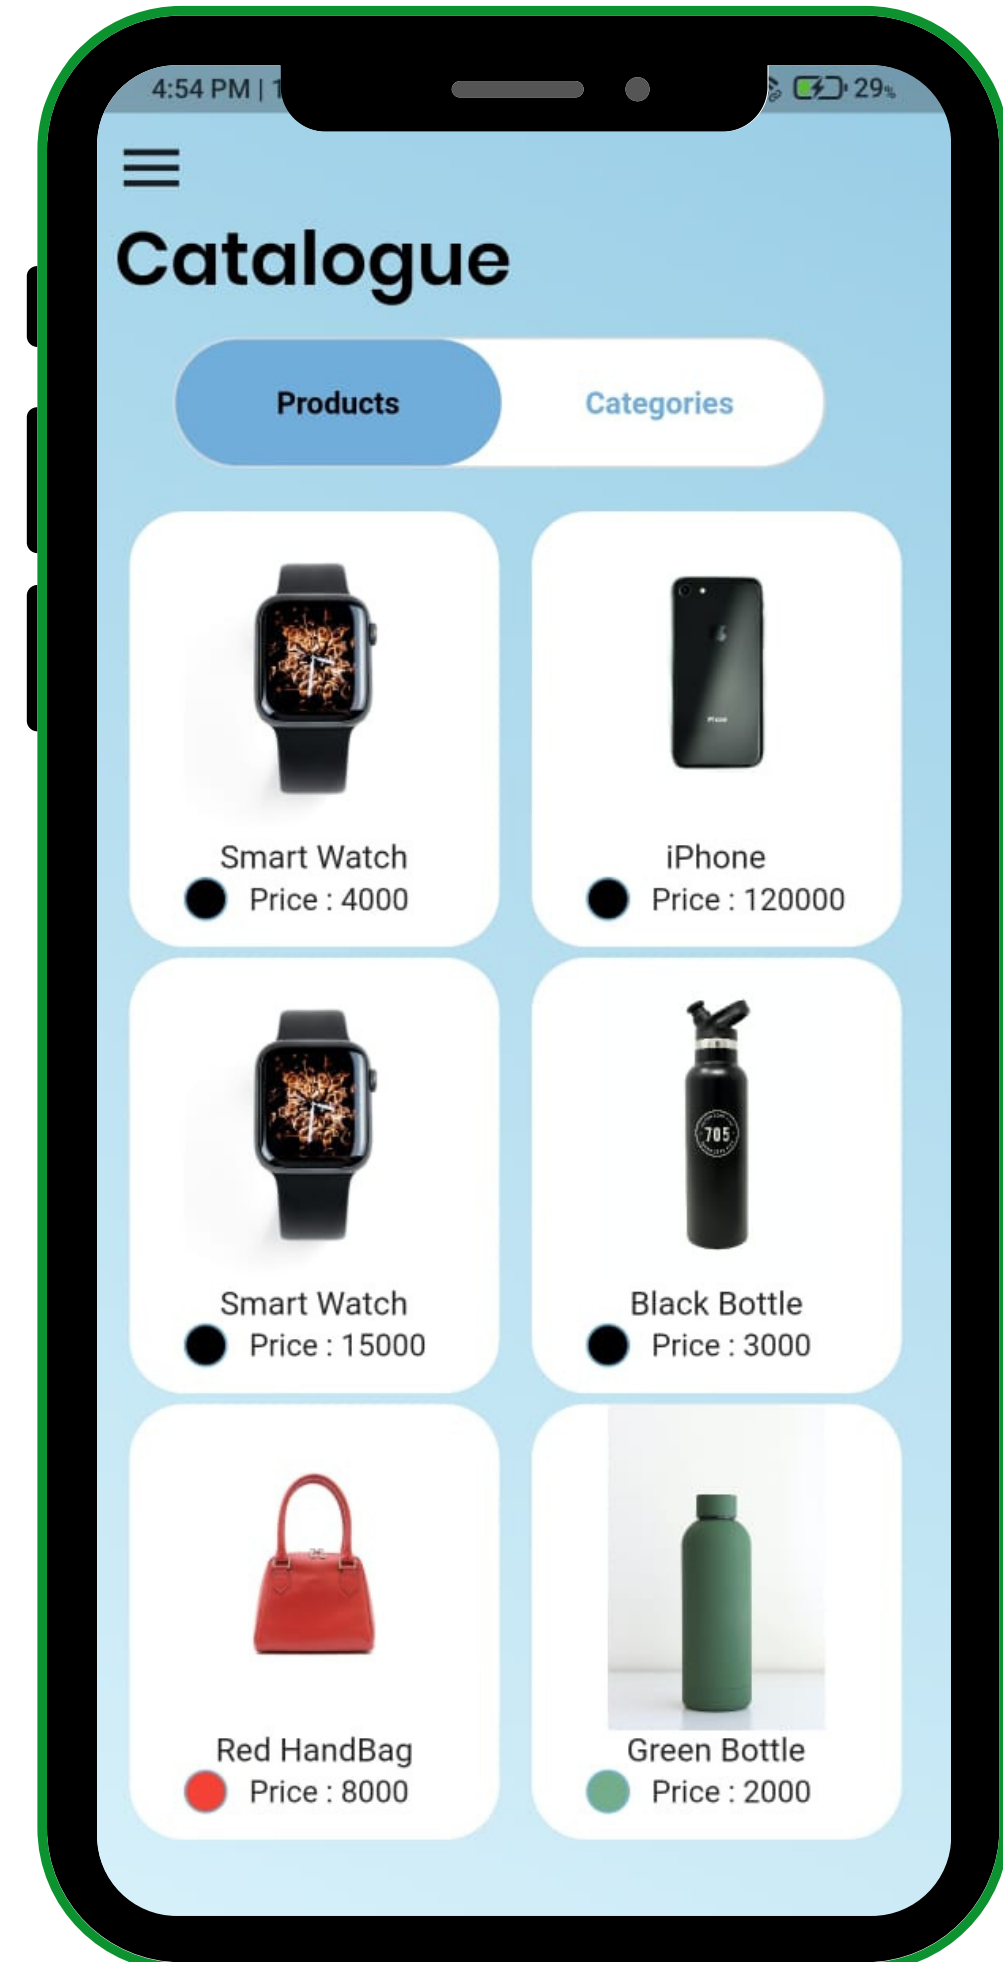

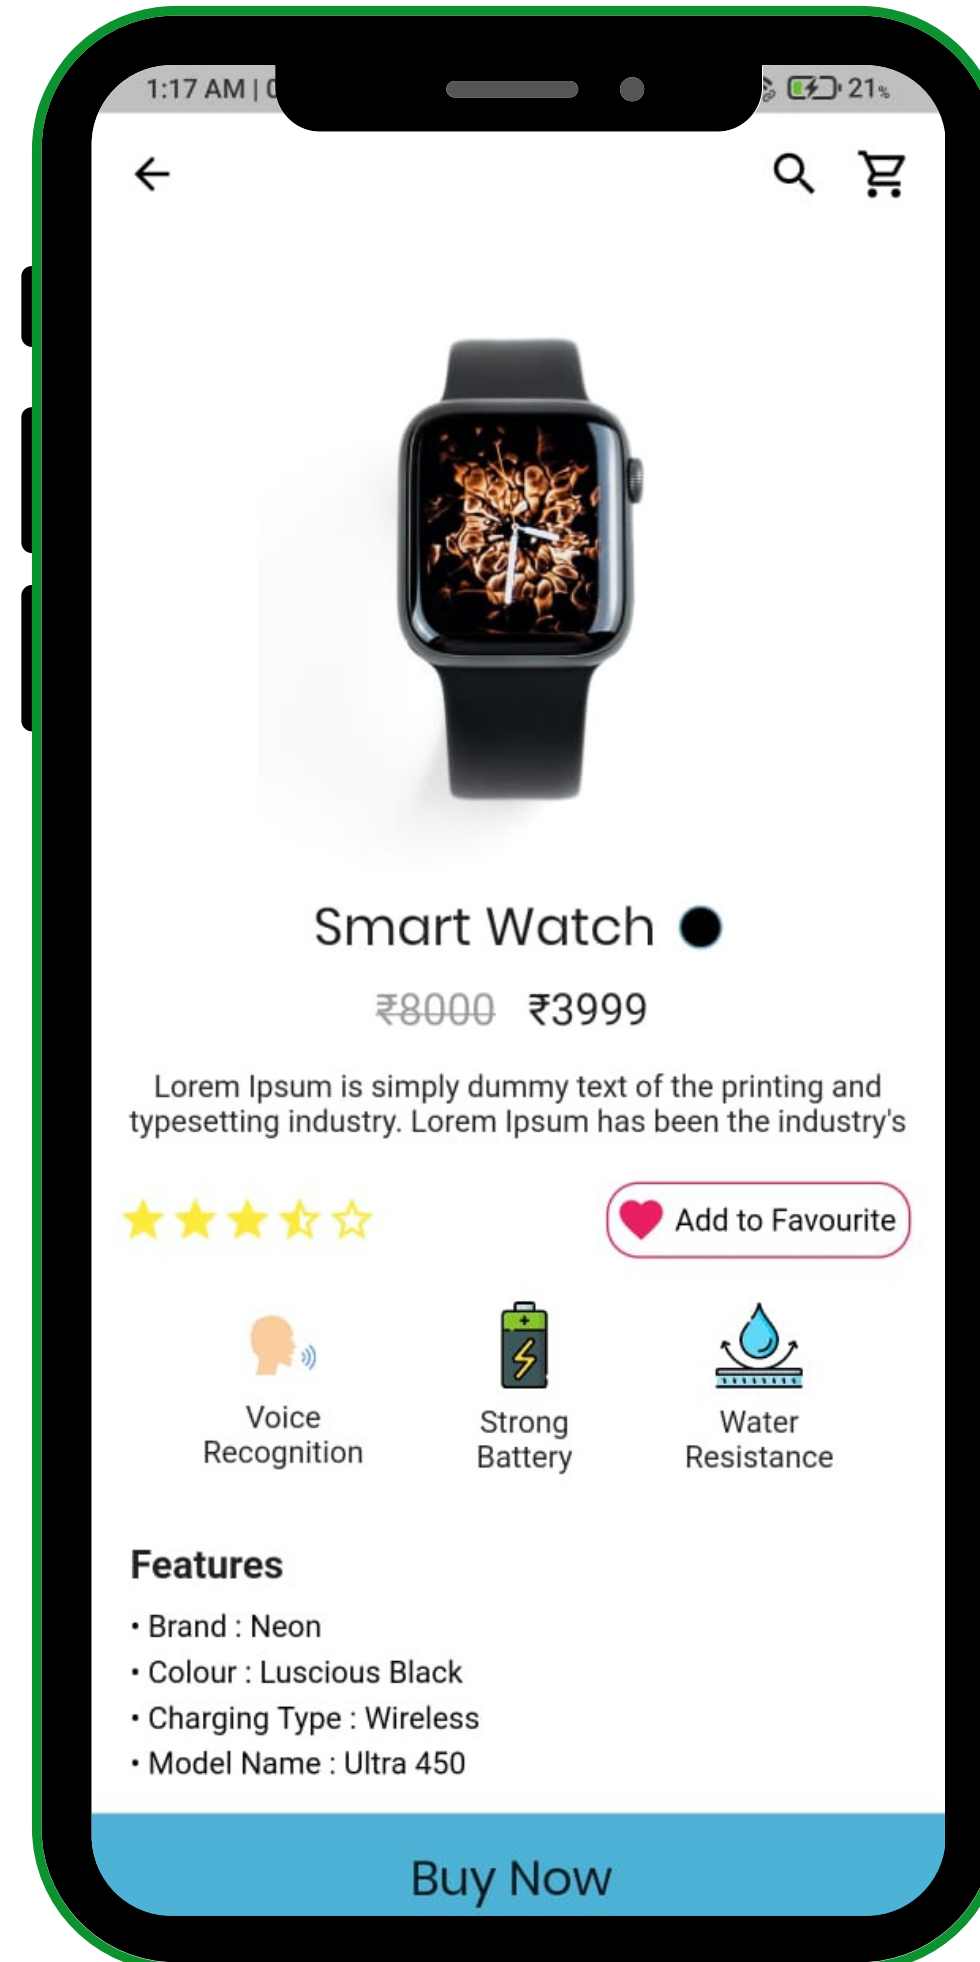

# Best in class design abilities
